

- I AM HEALTHY
- I AM FOCUSED
- I AM STRONG
- I AM BEAUTIFUL

This Fundraiser is part of a series of events to contribute to seed fund the 'Bridging The Gap' initiative. This is to establish accessible, affordable psychological services that complement Doncare's existing counselling program. Providing a more responsive pathway for people who need a higher level of support but are unable to access private psychology or do not meet the thresholds for funded mental health services. To launch this program, we need \$300,000 and we are over halfway there.
